SUPT. RAKKIN VISITS BEREA

Honorabie M. C. Rankin of Henry County, our State Superintendent of Agriculture, was in Berea on Friday -Leading Negro Dead-Rate Law and gave a most imporatnt address to United Chapel. He expressed himself as surprised and gratified by what he saw in Berea, and in particular commended our work in mountain ngriculture and forestry.

The chief points in his address were upon the selection of seed-corn, the so-called dry euilivation, and the rotation of crops, 11e sold in part:

"I used to think that my futher was the handsomest man in the county, and also that he was the wisest, years after his death to begin to ehnuge, lu some particulars, his way of farming. THE WAY OF SUCCESS STILL OPEN.

it is the custom for a great many people, when they are asked why they do not get to work and make something of themselves, to answer that they are poor people, and their folks are poor people. They seem to think that this keeps them from being successful or useful or prosperous or in fact from winulng anything worth while

If such people, who would not make such a foolish remark unless there was something very poor in their brains as well as in their pocketbooks, would look around in the world a little bit, they would see there things that would make them so ashamed of themselves that they would really try to get ahead. On every side they will see where poor people, people with no more start than they have, won great success in some line of work.

Everybody knows of the rail-splitter and country store clerk who got to be president, and of the grocer's elerk that is now worth two hundred and fifty million dollars. But a lot of people will tell you that the chances such as came to them have gone, and that there is no chance for a poor man nowadays. They are right, if they mean a man with a poor head and poor spirit has no chance, but if they think they are talking about a mau with little money they are wroug.

Four weeks ago a man who started life as a rodnmu for a surveyor became president of the second largest railroad in the country. That is pretty close to up to date. And you can be very sure that that man will give the poor fellows a chauce. He knows just how it is. And of the thirty-four largest railroads in this country there are twenty-eight which are now managed by men who started out without a cent-right down at the bottom of the ladder of snecess. Every one of the sixteen biggest railroads in the country is managed by a president that started at the bottom-some of them were elerks, switchmen, telegraph operators, brakemen, office boys and section hands. Do you know any man so poor that he couldn't hold down one of those jobs? I'nless a man is that poor, he can get his feet on the ladder that has taken some other man clear to the top.

This is just one line-there is the same story to tell in each of the other lines of business in the country The leading steel mannfacturer began life as a brenker boy in a coal mine. The leading newspaper man began life as a printer's devil. One of the leading merchants started in as a huckster. And so on.

There is today every chance for any man that has got the real stuff in him. If a man fails to keep going toward the logoit is because there is something wrong with him, and may complaint because he is poor, or anything else, is just an excuse. This is a free country, and the freest thing in it is success- anybody can have it that will pay the price of it in work and brains. There is nothing that is less hindrance than being a "poor man."

OUR FRIEND JACOBY.

We were all moved by Dr. Torrey and Dr. Palmer, but we all LOVED Brosons, and a very brief word of prayer ther Jacoby, and here is his picture. From his letter to Mr. Gamble and others we believe Jacoby loves Berea. Here is good luck to you till you come again!

SUPT'S, CONFERENCE

The idea started by the Normal Debeen taken up by the two state Normais, and the schools at Richmond held such a conference very succesfully last week.

IN WASHINGTON

Taft and Aldrich Seem to Be Dead No New Trial for Hargis-Last of Locked over Tarriff-Senator Aldrich Smoothly Working to Get His Way-Prosperity Comings Back-Our Weekly Letter.

Washington, D. C.

May 3, 1909. Everyody seems to think that the Aldrich tariff act will become a law brought against him for improper by the early part of June in about conduct toward little girls. Mr. West the form that Aldrich wishes. No more erafty or adroit parliamentary that he was perhaps indiscreet. His leader ever paticipated in American legisintion than Aidrich. He appears at this time to have snatched victory from defeat in regard to the tariff new trial of Beach Hargis and the bili, and a high tariff will be retained unless President Taft vetoes the Court of Appeals. The young man

The thing which makes it possible for Aldrich to control the situation be confined at hard labor in the peniis that the Democratic Senators of teatlary at Frankfort for the rest the South want the southern pro- of his life, ducts protected, and the Democratic Senators of the West want their products protected. This ensures a high protective rate on both wool and

The Senate has witnessed the nniolina Democrat of the good old Southing for high protective tariff on inmber, while n North Dakota Republican who has been one of the mainstays of the Republican organization for years, Seuator McCumber was begging for free trade for lumber. Aidrich did not hesitate in the face of this situation. He made friends with the Democrats who favor protection, and let the Republicans who will not stand up for the stretching of the oid-principle go flock by themselves. The Senators are a conservative set of men. They feel that the Dingley Bill has given the country more prosperity than it ever bad before, and they do not propose to go back on what they consider a proven success.

CONCESSIONS TO TAFT.

It is said that Aldrich will make just enough concessions to President Taft's views in favor of reduction of the rates so that Tuft will not feel justified in sulitting his party up over a measure which will come so near to being downward revision. At any rate if anyone can get the bill through in its present form, Aldrich can do it. And there is no doubt that he is trying his best to

Speaker Cannon announced this week that he is in favor of a tariff ness, eommission to aid Congress. As a matter of fact the proposal for such the other man. a commission has found so many friends that no one expected Cannon to oppose it; and his deciaration sole coucern is to get there ahead is taken merely to indicate the terms on which ho will give n bill to provide for the commission his support.

OGTAVE THANET AUTHORS THE MAN & BOHOURS

SYNOPSIS.

The story opens at Harvard where Cot. Itupert Winter, U. S. A., visiting, saw the suicide of young Mercer. He met Cary Mercer, brother of the dead student. Three years later, in Chicago, in 1906, Cot. Winter overheard Cary Mercer ap-parently planning to kidnap Archie, the cotonet's ward, and to gain possession of Aunt Rebecca Winter's mittons. A Miss Smith was mentioned, apparently as a tonspirator. Winter unexpectedly met a relative, Mrs. Millicent Meiville, who relative, Mrs. Millicent Melville, who told him that his Aunt Rebecca, Archie and the latter's norse, Miss Janet Smith, were to leave for the west with the colonet and Mrs. Melville. A great financial magnate was aboard the train on which Col. Winter met his Aunt Rebecca, Miss Smith and Archie. He set his orderly, Sergt, Italey, to watch over Cary Mercer. Col. Winter learned that the financial magnate is Edwin S. Keatcham. On approaching Cary Mercer, the colonet was snubbed.

CHAPTER III .- Continued. Archie looked disappointed. "I suplose so," he sighed. "I'm afraid I'd want to, if they were pelating pistois when a nina showed fight. He wouldn't put up his hands, and the bandit plugged him, like a flash; he fell erosswise over the seat and the blood

was like a het jet of water." The homely and bizarre berror of the pieture bad evidently struck home to Archie; he half shivered.

spurted across Lewis' wrist; he said it

"Too much imagination," grumbled the colonel to himself. "A Winter ought to take to fightlag like a duck to water!" He betook himself to Miss Smlth; and he was uneasily consclous that he was going to her fer consoling. But he feit better after a Little talk about Archie with her. Plainly she thought Archie had plenty of spirit; although, of course, he hadn't told her ahout the bandlts. The negro was "kiddiag" the passengers; and women shouldn't be disturbed by such nonaense. The colonel had oid-fashiened views of guarding his womankiad from the harsh ways of the world. Curlous, he reflected, what sense Miss Smith seemed to bave; and how she understood things. He felt better acquainted with her than a year's garrison intercourse would have made bim with any other woman

That afternoon, they two sat wntchgrotesque semblance of ruined eastles him of the sicepy old South Carolinian piantation and the distant eousin who was like ber mother, and the hospital where she had been taught, nud the married sister who had died. Such a narrow, Inborious, Innocent existence as she described! flow cheerfully, too, she had sbouidered her hurdens! They talked of the south and of the Philippines; a little they talked of Archie and his sorrow and of the eternal problems that bave troubled the soul of man since first death entered the world. As they talked, the eolonel's suspicions faded into grotesque shndows. "Miffieent is ridiculoas," queth he. Then he fell to wonderlag whether there had been a romanee in Miss Smith's past life. "Such a handseme woman would look high," he sighed. Only 24 hours ago he had ealled Miss Smith "nice-looking," with eareless criticism. He was quite uncoasclous of his change of view. That night he felt lonely, of a sudden; the old wound la his heart ached; his future looked as bleak as the mountainwailed plaias through which he was speeding. After a long time the train in a sudden shock. He raised the curtain to eateh the flash of the ejectric fights at Gienwood. Out of the deep defile they gilttered like diamonds in a pool of water. Why should he think of Miss Smith's eyes? With an Impatient sigh, he pulled down the curtain and turned over to sleep.

Itis thoughts drifted, flonted, were submerged in a wavering procession of pictures; he was back in the Philipplnes; they had surprised the fort; how could that be when he was on guard? But they were there- He snt up in his berth, instinctively he slipped the revolver out of his bag and held it in one hand, as he peeped through the crevlee of the curtains. There was no motion, no sound of moving; but heads were emerging between the curtnins in every direction; and Archie was standing, his hands slinking above his tumbled brown head and pale face. A man in a soft hat held two revolvers while nnether man was pounding on the drawingroom door, gruffly commanding those inside to come out. "No we shall not come out," responded Aunt, Itebecen's composed, well-hred accents, ber neat enunciation not disturbed by n quiver. "If you want to kill an old woman,

you will have to break down the door." "Let them alone, Shay, It takes too long; let's finish here, first," eatied the man with the revolver; "they'li come soon enough when we want them.

No. 6, two years ago. flustle, young feller!"

The colonel was evelag every motion, every slifting from one feot te the other. Let then once get by Archie-

The boy handed over his pocketbook. "Now your watch," commanded the brigand; "take it, Sbay!"

"Won't you please let me keep that watch?" faltered Archie; "tbat was

papa's wntch." The chiidish name from the tall lad made the robber laugh. "And mamma's

little pet wants to keep it, dees he?

Well, be ean't. Get a meve on you?" The eolenel hnd the sensation of nn electric sbock; as the second robber grabbed at the fob in the boy's belt, Archie struck him with the edge of his open hand so swiftly and so fiereely under the jaw that he reached back against his companion. The colonel's surprise did not disturb the nutematle aim of an oid fighter of the plains; at me. Lewis was on the train once his revolver barked; and he sprang out on the man be shet. "Get back in the berths, all of you," he shouted; "give me a ebaace to shoot!"

> The velce of the porter, whose hands had been turning up the lights net quite sieadily, now pealed out with esmp-meeting power, "Dat's it; give de celonel a chaace to do some kiiling!

> Both bandlts were sprawling on the floor of the aisle, one llmp and moaning; but the other got one hand up to sboet; oaly to have Archie kick the revelver out of it, while at the same Instaat an umbrella handie fell with a wieked whack on the man's shoulder. The New England professor was out of his berth. He had been a basebail man in his own eoliego days; his bat was a frall one, but he hit with a will; sad a groan told of his success. Nevertheiess, the fellew serambled to his feet. Mrs. Melville was also out of her berth, thanks to which elreumstaace he was able to escape; as the celonel (who had grappled with the other man and prevented his rising) must needs have shot through his sister-in-law to hlt the fleeling form.

"Whnt's the matter?" demanded Mrs. Melvilie, while the New Englander used nn expression which, no doubt, as a good, church member, he ing the faatastic cliffs which took regretted, later, and the colonel thundered: "All tho women back lato crowning their barren hillsides; or of their herths. Don't nnybody shoot! deserted amphithenters left by some You, professor, look after that fellow vanished race to crumble. They had on the floor." He was obeyed; intaiked of many things. She had told stinetively, the master of the hour is obeyed. The porter came forward and town where she was born, and the helped the New Englander bind the prostrate outlaw, with two slik handkerchiefs and a pnlr of pajamas, guard mount being supplied by three men in very startling eostumes; and a kind of seragije audience behind the enrtains of the berth being enacted by ail the women in the car, only executing Aunt Rebecen and Miss Smith, Aunt Itebecca. In her admirable traveling costume of a soft gray sllk wrapper, looked as undisturbed as if midnight alarms were an every-night feature of tourneys Miss Smith's black hair was loosely knotted; and her face looked psle, while her dark eyes shone. They all heard the colonel's revolver: they all saw the two men wbo had met him at the ear door spring off the platform into the dark. The robbers had horses waltlag. The eoloael got one sbot; he saw the mnn fall over his horse's neek; hut the horse gailoped on; and the night, beyond the little splash of light, swallowed them completely.

After the conductor and the engineer had both consulted him, and the express messenger had appeared, stopped with a jar and rattle, ending armed to the teeth, a little too late for the fray, but not too late for lueld argument, Winter made his way back to the enr. Miss Smith was sitting beside Archie; she was holding the watch, which had played so important a part in the battle, up under the electric light to examine nn inseription. The loose hlack sleeves of her biouse fell back, revealing her arms; they were white and softly rounded. She looked up; and the soldler felt the sudden rush of nn emotion that he had not known for years; it eaught at has always run his road for his stockhis throat almost like an invisible holders and not for the stock market. band.

> "Well, Arehle," he said fooiishly, "good for jiu-jitsu!"

Arefile flushed up to his eyes. "Why oldn't you obey orders, young Col. Rupert Winter. "You're as bnd as poor Ifaley, who is nearly weeping nway from Mrs. Haiey in time to see the robbers make off."

"!-- I did at first; but I got so mad I forgot," stammered Archie happlly. "Afterward you were my superior offieer and f had to do what you said."

All the while ho chaffed the boy, he was watching for that beautiful look in Janet Smlth's eyes; and wondering when he could get her off by herseif to brag to her of the boy's courage. When his chance at a few words did come he chuckled: "Regular fool ple of quality in my day; we have only and strange nature; austere, yet not Winter! I knew he would act la just people of culture in this, i confess I repelling; vistas of footbilis bathed was her name? You are expecting Here, young felier, fish out! Nobody'll that absurd, reckless way." Then be prefer the quality. They had robuster in the evening glow; rank on runk of mo to exclaim, 'Ain't I volatile?' get hurt if you keep quiet; if you caught the look he wanted; it surely nerves and really asked less of people, firs, thii, strnight, be stifful, not wind. Thank flenves, i nm. I could always

His Revolver Barked.

same unaccountable, smothering leap; and he felt as the boy of 20 had feit, eoming back from his battle to his first love.

CHAPTER IV.

The Vanishing of Archie. room on the train to San Frauelsco; But never mind, you got your man about his gaag?"

The coionel sbook his head. "No, he's a tough country bey; he has the rural distrust of lawyers and of sweatboxes. He does absolutely nothing but groan nad swear, pretending his who makes a heroine out of methere are bigger people back of him. rougir!" it's most nwfully good of you, Aunt Rebecca, to stick to me this way."

old to be fickle. Did you ever know quality required less than people of a Winter who wouldn't stand by his eulture?" friends? I belong to the old regime, Bertle; we had our faults-glnring ones, I dare sny-but if we coadoned gang wants admiration and submissin too readily, we never condoned slon, and will not let us possess our meanness; such a trick as that upstart Keatehnm is doing would have been then, the quality despised no one, but impossible to my contemporaries. You snw the morning papers; you know he

means to ent up the Midland?" "Yes, I know," mused the colonel; 'and turn Traey, the president, down -the one who gave him his start on his bueaneering career. Archie was devouring the scene. Janet?" said he.

aititude?" asked Millicent anxiousiy; of ammenia; I'll fetch it for you."

Archie; but he was aided by the porter, who was now passing through the car proclaiming: "You all have seen Dutch Flat Mr. Bret Hahte wrote 'bout; nex' station is Shady Run; and eve'ybody look and see the greatea' scenie 'traction of dis or any odder rsiirond, Cape Hohn!"

instantly, Mra. Meiville fished her guide book and began to read:

"There are few mountsin pasaes more famous than that known to the world us Cape Horn. The approach to it is pleturesque, the north fork of the American river raging and fosmlug in ita rocky bed, 1,500 feet below and parallel with the track-

"Do you mind, Mildred, If we look natead of listen?" Aunt Itebecca iuterrupted, and Mrs. Melville ispaed into an injured muteness.

Truly, Cape Horn has a poignant grandeur that strikea speech from the iipa. One cannot look down that sheer were the best. I think partly it was height to the luminous ghost of a river below, without a thrili. If to perionce, what must the actual execu tion of that stupendous bit of engineering have been to the workmen who hewed the road out of the rock, suspended over the abyas! Their dangling binck figures seem to sway still as one awings around the curve.

Our travelers aat In allenee, until the "Cape" was passed and again they could see their roadbed on the side Then Mrs. Melviffe made a polite excuse for departure; she had promised a "Daughter" whom she had met st various "biennials" that she would have a little talk with her. Thus she escaped. They did not miss her. Hardly speaking, the four sat in the dimiy lighted, tiny room, while mountnins and fields and star-sown skies drifted by. Unconsciously, Archie drew closer to his uncle, sad the older man threw nn nrm about the young shoulders. He looked up to meet Janet's eyes shining and sweet, in the flash of a passing station light. Mrs. Winter smiled, her wise oid smile.

With the next morning came an other shift of acene; they were in the fortile valievs of California. At every turn the inndscape became more soft ly tinted, more gracious. Aunt ite hecca was in the best of humor and announced heracif as having the journey of her life. The golden green of the grain fields, the towering palms. the pepper trees with their fascinating grace, the round tops of the live-osks, the gloss of the orango groves, the calia lify hedges and the hellotrope and geranium trees which climbed to the second story of the stuceo houses, filled her with the enthusiasm of a chlid. She drank in the eries of the enterprising young liar who eried "Fresh figs." months out of season, and she ate fruit, withered in cold storage, with a trustful zest. No less than three books about the flora of California came out of her bag. A certain vine enlied the Bougainvillea, she was trying to find, if only the ears would not go so fast; as for poinsettias, she eertuinly should raise her own for Christmas. She was learned In gardens and she discoursed with Miss Smlth en the different kiads ot trumpetviae, and wbether the white jasinline trailing among the gaudy clusters was of the same family as that jasmino which they knew in tho plne foresis. But she disparaged the roses; they looked shop-worn. The eolonel watched her in nmazement.

"Bertie, I make you think or that erled. "Miss Muffins, Muggins? what blg or little, are nlwnys making straight for Janet. itertie, have you mnde up your mind about her?"

BOBBS-MERRILL CO.

"Only that ahe is charming," replied the colonel. He did not change color, but he was uneasily conscious ceived it. But she was mercifully biind to all sppearance; she went on Yet you never have the sense that she hssn't answered you. She's the best thing about her nausnai in most lis-

Itupert had noticed; he cailed himseif a doddering old donkey silently, because he had assumed that there This is like the south," said Miss was anything personal in the interest of those eyes when he had spoken. Of course not; it was her way with every Doesn't it just somehow make you one, even Millicent, no doubt. His feel as if you couldn't breathe, Miss aunt's next words were lost, but n sentence caught his ear directly: "For "Are you troubled with the high nii ahe's gentie, she has plenty of spirit Hertie, did I ever teil you about I have prepared a fittle visi of spirits the time our precious cousin threw our great-great-grandfather's gold snuff-The colonel had some ado to rescue hox at her? No? It was funny. She tlew into one of her towering rages, and shricking: 'Take that!' huried the snuff-box at Janet. Janet wasn't used to having things thrown at her. She caught the box, then she rang the bell. 'Thank you very much.' says Janet: and when old Aunt Phrosie came, sho handed the sunff-box to her as a present, But she sent it that same day to one of the sisters. There was never anything eise thrown at her, f ean tell you"

They found a wonderful sunset on the bay when San Francisco was renched. Still in her golden humor, ns they rattled over the robbiestones of the picturesque streets to the Palace hotel, Mrs. Winter fold anecdotes of Robert Louis Stevenson, obtained from a friend who had known his mother. Mrs. Winter had chosen the Palace in preference to the St. Francia, to Mrs. Meivific's high dis-

"She titinks It more typicai." sneered Millicent; "mys-lf, I prefer

cleanliness and comfort to types, Their rooms were waiting for them and two bell boys ushered Mra, Winter Into her suite. Itandali was lodged on the same floor, and Mrs Melville, who was to apend a few days with her aunt on the latter's invitation, was on a lower floor. The colonel had begged to have Archie next to him; and he examined the quarters with approbation. His own room was the last of the suite; to the right hand, between his room and Archie's, was their hath: then the parior of Mra. Winter's suite next her room and bath, and last, to the right. Miss Smith's room.

Archie was sitting by the window looking out on the street; only tho oval of his soft boyish check showed. The colonel went by him to the parlor beyond, where he encountered his aunt, her hands full of gay postal

"Souvenira de voyage," she answered his glance; "I am going to post them." "Can't I take them for you?" "No, thanks, I want the exercise."

"Mny i go with you?" "indeed, no. My dear Bertle, I'm

only aged, I'm not infirm." "You will never be aged," responded the coionei gullantly. Ilo turned away and wniked along the arcade which looked dewn into the great court of the hotel. Millicent was approaching him; Milileent in something of a tent per. Her room was hideously draughty and she could not get anyone, although

she had rung and telephoned to the office and tried every device which was effectual in a well-conducted hotel; but this, site concluded bitterly, was not well-conducted; It was only typical. "There's a lovely fire in Aunt Re-

heccn's pario"," soothed the colonei; 'eome in there.'

Afterward it seemed to film that this whole interview with Mibleent could not have occupied more than four minutes; that it was not more than seven minutes since he had seen Archie's shapely curly head against the curtain fall of the window.

flut when he opened the door, Miss Smith came toward them. "Is Archie with Aunt Itebeecn?" said she.

The colonel answered that he had ieft him in the parlor; perhaps he had stepped into his own room.

ftut neither in Archie's nor the colonel's nor in any room of the party could they find the boy (TO DE CONTINUED)

The rvory Nut.

The tvory nut, which is so much used by butten manufacturers, is the fruit of a species of palm which grows in Central and South America. It forms a valuable erop, particularly in don't you'll get a dose like the man in was a love; womaniy look; and it although they may have appeared to tortured and maimed, like the woeful take an interest in trifles. It has Panama, Colombia, Ecuador and Peru.

GREAT CONGRESS OF PEACE WORKERS HELD IN CHICAGO

Thousands of the Opponents of Warfars, Including Many Distinguished Diplomats and Statesmen, Gather to Discuss Disarmament and Worldwide Arbitration.

the globe was represented in the second National Peace Congress, which began bere Monday. The gathering was the greatest of its kind ever held in America, and brought to Chicago some 25,000 persons who are zenious workers in the cause of world-wide peace. Among these were emiaent statesmen and diplomats of this and other nations. Unfortunately, official duties preveated both President Taft, the honorary president, and Secretary of War Dickinson, the president of the congress, from heing present.

On Sunday there were special serv-Ices in most of the Chicago churches, peace meetings under the auspices of socialist and labor organizations, and a large mass meeting which was addressed by President Schurman of Cornell university, Rev. Jenkins Lloyd Jones and Dr. Emil Q. Hirsch of Chi-

Welcome to the Congress. Orchestra hall was filled to the limit Moadsy when the first session was called to order by Robert Treat Palae of Boston, the presiding officer, for wovernors, mayors and hundreds of clubs had been asked to appoint delegates, and most of them had respouded. President Dickinson's address, the same he delivered several weeks ago before the Hamilton club, was read, and the congress was then formally welcomed by Gov. Charles S. Dencen for the state, Mayor Fred A. Busse for the city and Rev. A. Eugene Bartlett, chairman of the reception committee. The secretary then read a brief letter from President Taft, lu which the chief executive heartily

commended the aims of the congress. Miss Anna B. Eckstein of Boston next was introduced to the meeting and read a "World Petition to the Third Hague Coaference." This was

William J. Calhoun.

followed by an address by Dr. Henjamin F. Truehlood, secretary of the American Peace Society, on "The Present Position of the Peace Movement."

What Has Been Accomplished. Dr. Trueblood sald in part:

"Let mo sketch in the barest outlines what has already been acconrplished. The interpretation will take care of itself.

"I. The men and women, now a great host, who believe that the day is past when blind brute force should direct the policies of nations and preside at the settlement of their differences, are now thoroughly organized. A innored years ago there was not a society in existence organized to promote appeal to the forum of reason and right in the adjustment of international controversies. To-day there are moro than 500, nearly every important nation its group of peace organizations. Their constituents are numbered by tens of thousands, from every rank and class in society--philantbropists, men of trade and commerce, educators and jurists, workingmen, statesmen, rulers

"The organized peace party has its International Peaco bureau at Berne, Switzerland, binding all its sections into one world body. It has its International Peaco congress which has held 17 meetings in 20 years-eongresses over which statesmen now feel It an honor to preside and which are welcomed by kings and presidenta with a warmth of interest and a generousness of hospitality scarcely accorded to any other organizations. It has its great national congresses in many countries, like this present one. and that in Carnegle half. New York. two years ago: and its special conference like that at Mohonk lake. It has sts unsurpassed banqueta and festivals, like that given to the Seventeenth International Peace congress ov the British government in London last July, and those recently given by the Peaco society of the city of New York.

Triumph of Arbitration.

"Il. The position which the peace provement has reached is no less distinctly determined by the practical attainments of arbitration. We are this year celebrating what is really the one hundredth anniversary of the birth of our movement, for it was in 1809 that David L. Dodge, a Christian merchant of New York city, wrote the of Boston. pampblet which brought the move

Chicago.—Every civilized country on | ment into being, and led six years later to the organization in his varior in New York of the first Peace society in the world. There had then been no urbitrations between nations in our modern sense of the word 'nations.' In the 100 years since 1809 more than 250 important controversies have been settled by this means, not to mention an even greater number of less important cases, the settlement of which invoived the principle of arbitration. Within the past 20 years so rapid has been the triumph of arbitration that more than 100 international differences have been disposed of by this means, or between five and

slx a year for the whole 20 years. The Hague Court. "The first Hague coafereace, ten years ago, gave us the Permanent Interaational court of arhitratioa, which has now been in successful operation for about eight years and disposed of several important controversies. This court was strengthened and improved by the second Hague conference two years ago, and, by the admission of the South and Central American states to it, has become the arbitration court. not of the 26 powers that gathered at The liague in 1899, but of the entire world. This tribunal is now taking practically all the international differences not adjustable by diplomacy

"Within less than six years, more than 80 treaties of obligatory arbitration, stipulating reference to The liague court of all questions of a judicial order and those arlsing in the interpretation of treaties, have been coucluded between nations in pairs. 23 of which were aegotiated the past year by our distinguished ex-Secretary of State Root, and ratified by both the president and the senate.

The Hague Conferences. "III. In order to determine further the advanced position which the peace movement has attained on its practical side, the two Hague conferences and what they have accomplished must be taken into account. it is still the babit of some persons to speak disparagingly of these great gatherings and their results Some do it because they are satisfied with nothing short of immediate per fection; others because they wish the whole movement for the aboiltion of war to fail. Othere do it purely from

"The first Hague conference gave us the permanent international court of arbitration, to which 24 powers finally became parties by ratification of the eonvention. This court has now for cight years been in successful operation, and not less than four centroversies have been referred to it during the past year. The second Hague conference enlarged and strengthened the convention under which this court was set up, and made the court the tribunal, not of 25 powers, but of all the nations of the world.

"The high water mark of the work of the second lingue conference was reached in its action in regard to future meetings of the conference. The principle of periodic meetings of tho conference hereafter was approved without a dissenting voice. The date even of the third conference was fixed and the governments urged to appoint at least two years in advance an international commission to propare the program of the meeting."

Dean W. P. Rogers of the Cincinnati Law school brought this session to a close with an elequent talk on "The Dawn of Universal Peace."

Addresses Monday Evening. Monday evening's meeting was devoted to "The Drawing Together of the Nations," and was presided over by Dr. Hirselt. The addresses were on "independence Versus Interdependence of Nations," by Prof. Paul S. Reinsch of the University of Wisconsin; "Racial Progress Towards Universai l'eace," by Rev. II. T. Kealing of Nashville, Tenn.; and "The Biology of War," by President David Starr Jordan of Leland Stanford, Jr., University. At the same time another meet ing was in session in Music hall, with Miss Jane Addams in the chair. The speakers there were Joseph B. Burtt of Chicago, on "Fraternal Orders and Peace;" Prof. Graham Taylor of Chicago Commons, on "Victims of War and Industry;" Samuel Compers, president of the American Federation of Labor, on "Organized Labor and Peace," and John Spargo of Yonkers, N. Y., on "international Socialism as a Peaco Factor,"

Commercial and Legal Views. Two hig meetings were held Tuesday morning, one on commerce and industry, presided over by Getrge E. Roberts, president of the Commercial National bank of Chicago, and the other on "Women and Peace," with Mrs. Ellen M. Henrotin of Chicago as chairman. The former session was addressed by Belton Gireath of Rirmingham, Ala., W. A. Maboney of Columbus, O., James Arbuckle, consul of Spain and Colombia, St. Louis, and Marcus M. Marks, presideal of the National Association of Ciothiera, New York eity. The women heard interesting speeches by Mrs. Philip N. Moore, president of the General Federation of Women's Clubs; Miss Jane Addams and Mrs. Lucia Amss Mead

"Some Legal Aspects of the Peace | sented.

Movement" was the general topic of the Orchestra half meeting Tuesday afternoon, and the chairman William J. Calhoua of Chicago. Prof. William I. Huli of Swarthmore college dlscussed the advances registered by the two Haguo conferences, and James Brown Scott, solicitor of the state departmeat, talked about some questions which the third liague conference probably will consider. 'Legal Problems Capable of Settlement by Arbitration" was the subject of a learned paper by Prof. Charles Cheney Hyde of Chicago.

Special Collegiate Session. In Mandel hall, at the University of Chicago, a special session was held for universities and colleges, a feature of which was an oratorical contest participated in by students. Louis P. Lochner of Madison, Wis., spoke on

The Cosmopolitan Ciubs." The general session of Tuesday evening was perhaps the most interesting of the coagress. "Next Steps lu Peacemaking" was the topic. The audlence was aroused to great enthuslasm by an eloqueat and spirited ad-

dress by Coagressman Richard Bartholdt of Missouri, president of the American Group, Interparliamentary union. Another paper that met with deserved applause was that of Edwin D. Mead of Boston on "The Arrest in Competitive Arming in Fidelity to The llague Movement."

Competitive Arming. In discussing this question, Mr. Mead said:

"Let us consider simply Great Britain, Germany and the United States. It is unnecessary to go further, because these three nations control the situation, and they are the chief sinners. If these three nations began today to act, with reference to armaments, in accordance with the spirit and purpose of The liague convention, the peace and order of the world would be assured to-morrow.

"la 1898 Great Britain spent oa her navy \$124,000,000; Germany spent \$29,000,000; and the United States spent \$50,000,000. Last year Great Britain spent \$170,000,000; Germany. \$\$3,000,000; and the United States. \$104,000,000. The increase in precisely ten years when there should havo been decrease was enormous Our own army expenses last year were as great as our navy expenses. Our navy expenses this year will be \$30,000,000 grenter than last year. We are today paying for expenses of past wars and preparations for possible wars 65 per cent., practically two-thirds, of our total national rovenue, leaving barely one-third available for all constructive purposes. What would Washington and Jefferson and Frankiin say to this? We know what they did say about things of this sort. They would say to-day that the republic was stand-

Hepe for the Future.

"This is what has come about in ten years in these three nations because The Hague conference in 1899 did nothing about the reduction or arrest of armaments. As we now look back, we see that it could not do much directly at that time. The war system of nations could be supplanted only by the gradual development of a system of international law and justice to take its place. When the first Hague conference created the international tribunal, it did indirectly tho most probably which it could do in behalf of the reduction of armamenta, because it took n long step in furnishing the nations with such legal machinery for the settlement of their differences as makes recourse to war mnchinery more and more unnecessary and inexcusable. It has been in the line of this thought that the in ternational lawyers have had their bopeful assurance. Develop the iegai machinery, they said, and the armaments will perforce crumble of their own dead weight.

"The continued and rapid development during the decade of provision for the peaceful settlement of international disputea has been something unparalleled in history. The leaders of the movement for international justice are sometimes reproached with helng dreamers. The only trouble with them in the past ten years has been that, so far as the development of the instruments of international justice are coneerned, they have not been able to dream duringly enough or fast enough

to keep up with the facts." Among the diplomats who came to Chicago to attend the Peaco congress were: Ambassador Count Johann Helnrich von Bernstorff of Germany; Herman de Lagercrantz, envoy from Sweden; Wa Ting Fang, envoy from China; Alfred Mitchell Innes, counselor of the British embassy, and Dr. lialydan Kont of the University of Norway. The Japanese, Turkish and French ombassion also were cours

Sunday School Lesson for May 16, 1909 Specially Arranged for This Paper

LESSON TEXT,-Acts 14:1-28. Memory GOLDEN TEXT .- "All the gods of the nations are idois; but the Lord made the neavens.' -1'saim 96:5.

TIME.-Immediately after the last lesson. Perhaps in the autumn of A. D. 47. PLACE.-Lycaonia, in southern Galatla. Iconium, Lystra, Derbe, with a return to Antioch and Perga, and thence to

Suggestion and Practical Thought. The greater the work a man endeavors to do, the greater the obstacles that he will meet, and the more numerous they will he. It is a principle of physics that resistance increases as the square of the velocity. Paul's work, like that of all true Christians, was very great, and therefore it encountered formidable obstacles.

Hut these hindrances were overcome, in Christ's strength; and the process of overcoming them streagthened Paul, as it will strengthen us. "A certain amount of opposition is a great help to a man. Kites rise against and not with the wind. Even a bead wind is better than none."-John Neal.

"A great multitude both of the Jews and also of the Greeks (Jewish proseiytes) believed;" but there were "unbelleving Jews" (R. V. "disobedient" to the truth), who prejudiced the Gentile populace agalast the missionaries by their calumnies. For this double reason ("therefore," v. 3) Paul and Barnabas remained at lconium a "loag time," probably several months, since (1) there were so many converts to he instructed in their new faith, and (2) that faith was ovidently to be tried by severe opposition and would need to be strongly re-enforced by instruction. Finally, however, the hatred of tho Jewish rulers and of the Gentiles whom they influenced (not the Gentile rulers, see v. 5) became so inflamed with the missionaries' bold speech and incressing success that n plot was formed to stone them as blasphemers. Getting knowledge of this, and mindful of Christ's command (Matt. 10:23) to flee from persecution, Paul and Barna bas escaped, going first to "Lystra," 18 miles south-southwest of Icoaium and then to the Derbe, 20 miles to the

Stories of the gods coming down to man were common among the Greeks and other races. "Like distorted and obscure reflections in muddy water, they give a blurred image of the great truth."-Maclaren. They show that Christ's coming was in response to a universal need. One of these tales was of the visit of Jupiter and Mercury to this very Lycaonia. The people thought them to be poor vagrants, refused to entertain them, ridiculed and maltreated them. At last they came to the hut of the poor pensants, Baucls and Philemon who received them hospltably and entertained them with the best they had. In return, the gods transformed their hut into a glorious temple over which they were set as the chief ininisters of worship, while the churlish neighbors were punished by a terrible flood which overwhelmed them. The statue of Jupiter stood he fore the gate of Lystra, and Ewald suggests that this story of Baucis and Philemon may have been recited year by year at the great festival in this temple.

southeast of Lystra.

They "persuaded the people." "Probably they influenced the multitudes to regard the miracle, the reality of which they could not dispute, as the work not of beneficent gods, but of evil demons,"-Expos. Greek Testament. They raised a mob, which "stoned Paul," whose bold speech had centered hostility upon himself. What memories of the stoning of Stephen ten or eleven years before must have passed through Paul's mind! "Transformed into a howling mob, like those which even in Christian America shoot negroea, Chinamen and italians, the quondam worshipers left Paul ready, as they supposed, for the cremation fires or the vagrant dogs."-William Elliot Griffs, L. II, D. Perhaps, as the stoning of Stephen must have moved Paul toward Christianity, the stoning of Paul was the turning point in the life of Timothy. The young man may have been among "the disciples who stood round about him." to give what ald they could, and care for his body If he were really dead.

Note the sudden change in the feellngs of the people toward Paul, and compare it with the revolution in the attitude of the people of Jerusalem toward Christ, from "Hosanna!" to "Crucify him!" Compare also the sudden change in the minds of the people of Malta, Acts 28:4-6. The lesson is "not to rate very highly human praise; not to be greatly depressed by human censure. Had Paul been desperately anxious to please Lystra, I fancy that that stoning would have killed him."-Morrison.

How did the missionaries close the first missionary journey? Properly and wisely, with a report to the home ehurch at Antioch In Syria, which had sent then forth.

This report was to the whole ehurch, for all had a part in the work, and needed the stimulus of the report. Every member of the eongregation should be in the missionary meeting. (2) It was a modest report, telling what "God had done with them," on their side, as an ally, and not recounting the achievements as their own. (3) It was an encouraging report, a report of progress, telling of the great forward step that had been taken, the admisrion of Gentiles into the church through "the door of faith," and no longer through the rite of circumaislon.

THE MODEL SCHOOLS for those least advanced. Same lectures library and general advantages as for more advanced students. Arithmetic and the common branches taught in the right way. Drawing, Singing, Bible, Handwork, Lessons in Farm and Household Management, etc. Free text

TRADE COURSES for any who have finished fifth grade (fractions and compound numbers), Brickwork, Farm Management, Printing, Woodwork, Nurslag, Dressmaking, Household Management. "Learn and Earn."

ACADEMY, REGULAR COURSE, 2 years, for those who have largely finished common branches. The most practical and interesting studies to fit a young person for an honorable and useful life.

CHOICE OF STUDIES is offered in this course so that a young man may secure a diploma in Agriculture and a young lady in Home Science.

ACADEMY, COMMERCIAL, 1 year or 2 years to fit for business. Even a part of this course, as fall and winter terms, is very profitable. Small

ACADEMY, PREPARATORY, 2, 3 and 4 year courses, with Latin, Ger man, Algebra, History, Science, etc., fitting for college.

COLLEGIATE, 4 years, Literary, Scientific and Classical courses, with uso of laboratories, scientific apparatus, and all modorn methods. The highest educational standards.

NORMAL, 3 and 4-year courses fit for the profession of teaching. First year, parallel to 8th grade Model Schools, enables one to get a first-class certificate. Following years (winter and spring terms) give the information, culture and training necessary for a true teacher, and cover branches neces sary for State certificate.

MUSIC, Singing (free), Reed Organ, Voice Culture, Piano, Theory, Band, may be taken as an extra in connection with any course. Small extra

Expenses, Regulations, Opening Days.

Berea College is not a money-making institution. All the money received from students is paid out for their benefit, and the School expends on an averago upon each student about fifty dollars a year more than he pays in. This great deficit is made up by the gifts of Christian and patriotic people who are supporting Berea in order that it may train young mon and women for lives of usefulness.

OUR SCHOOL IS LIKE A FAMILY, with careful regulations to protect the character and reputation of the young people. Our students come from the best families and are earnest to do well and improve. For any who may be sick the College provides doctor and nurso without extra charge.

All except those with parents in Berea live in College buildings, and assist in work of boarding hall, farm and shops, receiving valuable trainlng, and gettiag pay according to the value of their labor. Except in winter it is expected that all will have a chance to earn as much as 35 cents a week. Some who need to earn more may, by writing to the Secretary hefore coming, secure extra employment so as to earn from 50 cents to one dollar a weck.

PERSONAL EXPENSES for clothing, laundry, postage, books, etc., vary with different people. Berea favors plain clothing. Our climate is the best but as students must attend classes regardless of the weather, warm wrace and underclothing, umbreilas and overshoes, are necessary. The Co-operative Stere furnishes books, tollet articles, work uniforms, umbrellas and other necessary articles at cost.

LIVING EXPENSES are really below cost. The College asks no rent for the fine buildings in which students live, charging only enough room rent to pay for cleaning, repairs, fuel, lights, and washing of bedding and towels. For table board, without coffee or extras, \$1.35 a week in the fail, and \$1.50 in winter. For room, furnished, fuel, lights, washing of bedding, 40 cents a week in fall and spring, 50 cents in winter.

SCHOOL FEES are two. First a "Dellar Deposit," as guarantee for return of room key, library books, etc. This is paid but once, and is returned when the student departs.

Second an "incidental Fee" to help on expenses for care of school buildings, hospital library, etc. (Students pay nothing for tuition or services of tenchers-all our instruction is a free gift). The incidental Fce for most atudents is \$5.00 a term (\$4.00 in lower Model Schools, \$6.00 in courses with Latin, and \$7.00 in Collegiato courses),

PAYMENT MUST BE IN ADVANCE, incidental fee and room rent by the torm, board by the half term. Installments are as follows:

WINTER-12 weeks, \$29.00,-in one payment \$28.50.

Installment plan: first day \$21.00 (including \$1.00 deposit), middle of

SPRING-10 weeks, \$22.50,-in one payment, \$22.00. Installment plan: first day \$16.75, (including \$1.00 deposit), middle of

SPRING-4 weeks' term for those who must leave for farm work

SPRING-7 weeks' term for those who must leave for teachers' ex

aminations, \$16.45.

Winter and Spring terms together, one payment, \$49.00. REFUNDING. Students who leave by permission before the end of a

term receive back for money advanced as follows: On board, in full except that no allowance is made for any fraction of

On room, or on any "special expenses," no allowance for any unes pired fraction of a month, and in any case a forfeiture of fifty cents. On incidental Fee, when one leaves before the middle of the term.

certificate is given allowing a student to apply one-half the fee for term bills when he returns, provided it is within four terms.

iT PAYS TO STAY-When you have made your journey and are well started in school it pays to stay as long as possible.

The first day of Winter term is January 6, 1909. The first day of Spring term is March 25th, 1909.

For information or friendly advice, write to the Secretary.

There's still room at the top; but

****************** THE OBLIGATION TO GIVE

By REV. A. C. DIXON, D. D., Pastor of the Chicago Avo. (Moody's) Church. Chicago.

Giving 1s, doubtless, the most Important part of stewardship. Jesus said: "Give aims of such things as ve have: and, behold, all things are clean unto you. (Luke 11:40.) Getting and holding pollutes us anil our holdings with selfishness. The dirtlest thing in this city is accuinulated wealth

not a penny of which has been given to God or humanity. Jesus said again: "It is more blessed to give than to recelve." And the word blessed means happy without the hap, in giving there comes a joy which is not dependent upon chance. It is a law as regular in Its workings as gravitation that giving makes the giver happy and getting money with a view to doing good hy giving it fills with joy. Paul says to the toller in Ephesians 4:28: "Let him labor, working with his hands that which is good, that he may have whereof to give to him that hath need." The dally toller goes to his work with a song in his heart if he has the high and holy motive of working that he may help others ia need of body, mind of soul. "What are you doing this morning?" said a aeighbor to a sturdy blacksmith. "Preaching the gospel to the regions beyond." answered the Christian man as he swiing his hanimer and remembered the subscription he had made to foreign missions the day hefore. Toll at the unvil had been glorified into joyful service for the King of kings. Riches as Burdens.

The Hehrew word for richea means "burden," and some one has said: There is often a burden of eare in getting them, a burden of anxiety in keeping them, a hurden of temptation in using them, a hurden of guilt in ahnsing them, a burden of aorrow in losing them, n hurden of account at last to he given up for possessing without improving them." But in giving them there is a hurden of joy which like the wings of the bird lifts the soni upward toward God in the spirit of self-sacrifieing love. The Dend sea takes in the Jordan and holds it. Hence the death and repulsion. The Sea of Gaillee takes in the Jordan and gives it off. Hence its life and beauty. Getting and holding make a Dead sea with no life in its waters, while getting and giving make a Sea of Galilee full of life and beauty.

One-tenth is the law: "as God hath prospered" is the gospel, which, as siways, goes beyond the law. For Israel to withhold the tithe was to rob (Mai. 3:8.) The law said: "All the tithe Is the Lord's." (Lev. 27:30.) The tithe was, therefore, a debt to God which the Israelite must pay becould give anything. Christian, to be sure, will not insist that he ought to do less than the the Lord's work, while he gladly gives freewill offerings prompted by eonsiderations of "judgment, mercy and

Real Giving. These freewill offerings should be Inspired by "the grace of our Lord Jesus Christ, who, though he was rich, yet for your sakes became poor, that ye through his poverty might be rich." (2 Cor. 8:9). Try to compute 'his poverty" and our riches through him. Then ask how much ought we to give? If you would build symmetrical Christian character do not let the graco of giving languish.

Linked with Christ, money brings inrge returns. The wldow's two-fifths of a cent given in love and fulth have increased to millions of dollars. The alahaster box, broken and poured upon the head of Christ, has fliled the ages with its perfume, and, as a result, millions of alabaster boxes have been poured upon his hend. A Christian man, oneo prosperous in husiness, but now poor, says: "The only money I really saved was what I gave." other man with an Income of \$7,500 n year lived on \$500 a year and gave \$7,000 to religious and benevolent objects. Another, whose annual income was \$10,000. lived on \$1,000 and gave the rest, thus reversing the law of tithing by keeping one-teath and giving nine-tenths, which was his gospei privilege. Wesley's Method.

When John Wesley in preaching his sermon on giving to a large audience announced his first division: "Make all you can," an enthusiastic brother front of him exclaimed "Amen. That's good," and when he announced his second division: "Save all you can," the enthusiastle brother said more emphatically, "Amen. That's better." But when he announced his third division: "Give all you ean," the brother lost bla euthuslasm and growled: "There, now. You've spolit your sermon. Too bad." And yet the divisions of Wesley's sernon are a good motto for every Christian steward: "Mnke all you ean, save all you can, give all you ean."

Kindness Better Than Gold. A hit of kindness is a hetter gift by fur than all the gold in the kingdom. The one brings out all the good and heavealy attributes and the other all the unreal and worldly.

Dog Gave Hint to Stop. Speaking on "Domestie Surgery" at Rayleigh, Essex, Miss Violet Dering stopped when she saw her dog yawn. She explained that he invariably accompanied her to her meetings and yawned when he thought she had spoken enough. - Londoa Evening Standard.

The Book of Human Life.

Alas! It is not till Time, with reckless hand, has torn out half the leaves from the Book of Human Life to light the fires of human passion with, from dsy to day, that man hegins to see that the leaves which remain are few in number.-Longfellow, "Hyperion."

New York's Boast.

A statistician in one of the city departments, who has kept tah on the business, says that there are as many marriages in New York every year as there are in Philadelphia, Bostoa, Washington, Chleago and St. Louis combined.

MOMBER OF KENTUCKY PRESS ASSOCIATION

A judge in Indiann has decided that the lotters "O. K." mean "All right." But think of the darkness which must becloud the Indiana mind when such a quostion has to be taken to court.

A crabbed old bachelor rushes into print to say that his idea of bravery is a Mormon. What that chap really noeds is a wife who would wake him every morning hy cracking a milk bottio over his head.

Ciementine Rocher, nged 16, threw herself into the Seine, opposite the Paials Bourbon, in Paris. Before assistanco could be given she had regained the bank and informed the terrified spectators that she was rehearsing for suicide, as she proposed to take her life by drowning. She was arrested.

Count von Zoppelin's new balloon is being made by the firm of Spencer & Sons of Highbury, In North London, England. There are dozens of men and girls employed in the ovolution of the balloon, which is composed of new cells of six-fold goldbeaters' skin. The work is being pushed forward with all possible speed.

Western newspapers, which airendy are ably conducted, are to be still better in the future, if the colleges can bring it about. Indiana university of fers four courses in journalism this year, and similar courses are arranged. or will soon be provided for, in the universities of Wisconsin, Illinois, ting it into effect. Kaasas, Nebraska, Washington and Missouri

Here are some figures from a lumber camp up in Greenwood which gives an idea as to the appetite of husky woodsmen: There are 35 men in this crew, and the cook reports that ho makes each day 300 large biscuits, 150 make agreements with foreign nadoughnuts, 36 pies, bakes six quarts of tions. dry beans, with potatoes, vegetables. etc., In proportion. A largo beef ls eaten overy five days.

Georgo Presbury Rowell of New York, prominent for many years in the newspaper advertising business, died a few days ago. He began the publication of the American Newspaper Directory in 1869. This publication made accessible for the first time to every one a complete list of newspapers. In 1888 he established Printer's Ink, a weekly publication.

Peoplo who are objecting to the high tax rate this year will be interested to learn of Sturminster Marshall in Dorsetshire, England, where they almost never have any taxes. total municipal expenditure last year was £3 15s, of which £2 was for painting the village Maypole. This just so the town won't seem odd.

The latest word from Commander Peary represents that intrepld explorer woil up toward the polar sea with his good ship Rooseveit and waiting for a good chance to make a dash toward the pole itself. All were well and the conditions favorable. Who knows but the next gale that sweeps from the frozen north will bring the news that Peary has got there?

Some English surgeons have re ceived permission from the Egyptian government to make investigations among the mummles and other things in the Cairo museums in order that something may be learned of the almost prehistoric surgery. It is known that the early Egyptians were adepts in performing certain operations which are even now considered diffieult.

The Boston Globe recently called attention to a famlly which will cast 17 votes for Mr. Brysn this fail. That record is eclipsed, however, by the discovery of the Potts family of Mishawaka, Ind., which will contribute 30 votes to Mr. Taft. The head of the Potts family evidently was a disciple of at least one of Mr. Roosevelt's poilcles before Mr. Roosevelt was ever heard of.

The coal railway from Ishien to Taterschuang, on the Grand canal, will probably he completed next year. The earth work, bridge work and culvert construction has been let to a Chinese named Tsehla, who had previously givon proof of his responsibility. The line will be about 30 miles long.

TARIFF ARGUMENT

GENERAL DISCUSSION MAY PRO-LONG DEBATE FARTHER THAN ANTICIPATED.

WILL ALLOW WIDEST LATITUDE

Western Senators To Make Speeches-Senators Borah and Piles Will Open Ball Monday-Senate To Meet Eariler.

Washington, May 3 .- The general debate on the tarlff in the senate is expected to continuo during the present week and it is now believed that it will extend well through next week.

The committee on finance is dispesed to allow the widest latitude in the general discussion on the subject, but is at the same time prepared tu proceed with the consideration of the schedules which have been passed over whenever there is a cessation of the speech-making.

Senators Borah and Pilos will open the ball on Monday, the former in advecacy of an income tax and the latter in support of a high duty on lumber. Senstor Bradley has given notice fer Tuesday, and Senators Dolliver and Cummins, both of lowa, have indicated

Wednesday or Thursday. Beginning Monday the senate will couvene at 11 o'clock daily and, if necessary, the session will be prolonged somewhat later in the day than or-

that they will make general speeches

In the house the Philippine tariff bili probably will he reported on Thursday, but It will not be Immediately taken up for consideration.

The senate tariff bill, in the section which deals with the maximum and nisnimum proposition, has, in the judgment of tariff experts, one very lmportant feature.

It practically vests in the president the power to declare a tariff war broken off her engagement to marry against any nation or to refrain from any such war.

It is given to him to decido whether any nation is discriminating against the United States in its system of dutles. This permits the government, through the state department and the other agencies provided by law to make agreements with other nations as to trade and tariff concessions which can be mado effective by n proclamation of the president without the necessity of anything in the way of legislation or treaty agreement.

In this way the delay can bo obviated which would necessarily follow the submission to congress or to the senste of any proposition requiring such sanction and approval before put-

The bill, it is explained, authorizes the president to ompley at his discretion any persons to secure information or assist him in the discharge of these duties, which would mean that he can

PASSENGERS

On Trolley Car Saw Man Robbed and Murdered, But Could Not Interfere.

Phliadelphia, Pa., May 3.—Clarence White, 22 years old, who lives in a secluded section of Chester county, was the victim of a brutal murdor early Sunday morning that was witnessed by passengers on a suburban trolley car, who, however, were unable to reach him in time to save his life.

While waiking along a lonely country road he was held up by three highwaymen, who relieved him of a small sum of money, then cut his throat. The cries of the approaching passengers frightened away White's slayers. Late Sunday night Eliwood and year a half-penny tax is to be levied, Ciarenco Bias and Orville Forwood. were arrested on suspicion of being the murderers.

> Damages Must Bo Pald. Chicago, May 3.-Tho Cooke Brewing Co. and John Flynn, William Duggan and M. P. Duggan, saloon keepers must pay Bart Horan, 4 years old, \$1,000 damages. Judgo Scovill so declded the suit brought against the defendants by Mrs. Katherine Horan, mother of the boy, under the dramshop act. Sho alleged that the intoxication of her husband and the conse-

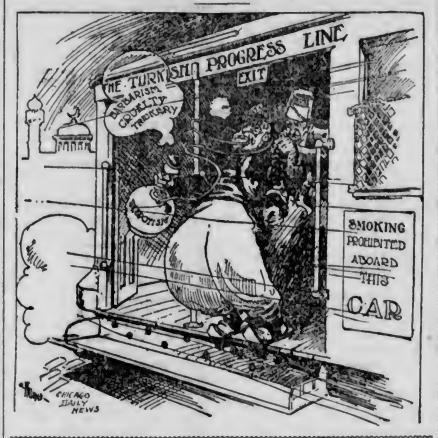

quent loss of support for the boy were contributed to by the defendants.

Record for Oranges San Bernardino, Cal., May 3.-All previous records have been broken by the Santa Fe for the month of April in shipments of oranges to the east. During the month 3,984 cars passed through this city destined for the 'east. Each car contained 384 boxes, and, with about 175 oranges to the box, makes a total of 268,800,000 oranges. The value of the month's shipments was about \$4,000,000.

Steamer Wrecked on Island. Pittsburg, Pa., May 3.-The Nellie Hudson, one of the finest and largest sleamers on the Alleghany river, owned by Capt, John S. Iludson, of Kittanning, was wrecked on an island at Lo gansport. A propeller shaft broke

The crew was saved. Rescued From Wrecked Pier. Old Orchard, Me., May 3.-Six work men, who had been marooned in the calsiae at the ocean end of the stormwrocked Old Orchard pier since Fri day morning, were taken ashers safely in rowboats Sunday.

STUDENT SHOT BY JILTED SUIT-OR WHO COMMITS SUICIDE.

Rich Chleagoan's Son Kills Miss Helen Marden Who Had Broken Off Engagement.

Northampton, Msss.-Porter Smith, graduate of Dartmouth college, and the son of a wealthy Chicsgoan, Wednesday fatally shot Miss Helen Ayer Marden of Somerville, Mass., on tho campus of Smlth college, where she was a senior, and then committed suicide. The young woman bnd

Miss Marden was taken to the Dickinson hospital, where she died shortly hefore noon. She was the daughter of Frank W. Marden, a Boston oll merchant, who lives in Somerville.

Smlth, whose home was in Chicago, had been in Northampton for several days. It is said that he had persistently followed Miss Marden and tried to force his attentions on her, but she refused to have anything to do with him. In the forenoon when the majority of the students of Smlth were nt chapel Mlss Marden came out of the student's building where sho roomed. She had stayed away from the chapel exercises, it is understood, because she feared she would be further pursued by Smith on the way Outraged Physician Fatally Shoots there. She had gone only a short distance when she met Smith.

Suddenly workinen not far distant heard a shot and a girl's scream. Turning around they saw Smith standappoint commissioners representing voiver in his hand. Before they could toon 11. Gaspanian, while the latthe United States to go abroad and reach the couple they saw Smith ter was being straigned in police of the Murder of His Father and make agreements with foreign national raise the revolver and fire two more court with his nunt, the physician's shots at the girl. Miss Marden sank to the ground and Smith immediately pisced the muzzle of the weapon to his own head and fired, failing dead beside the young woman,

Head Hunters Who Killed Scientist Are Caught by Philippine Commissioner Wooster and Scouts.

Chicago. - A telegram from Commissioner Wooster, secretary of the Interior of the Philippine islands, to Maj. H. F. Edwards, secretary of insuisr affairs of the war department at Washington, announces the capture SHOWS BEET SUGAR GROWTH. of the murderers of Dr. William Jones, the anthropologist, who was killed last March hy head hunters of Dumabatos.

Upon receiving word of the murder of Dr. Jones, Maj. Edwards cahled Commissioner Wooster to capture the entire tribe connected with the murder. Wooster immediately set out with a strong detachment of scouts for the Dumabatos country to recover the body of the scientist and bring the gulity tribo to justice. Until yesterday nothing had been heard of the searchers and for a while it was thought the entire party was lost.

Sunday School Convention. Crookston, Minn.-Hundreds of Sunday school workers from all parts of the state have come to Crookston to attend the fifty-first annual Minnesota Sunday school convention, which opened Tuesday morning. President W. H. Gold of Red Wood Falis was in the chair, and after a song and Bibio service W. C. Pearce of Chicago spoke on "A Forward Movement in World Conquest." A practical demonstration of the house visitation canvass follower house of congress, and for lowed. In the afternoon H. Beudixen many years chairman of the national of Springfield presided, and the chief Republican congressional committee, speakers were Rev. E. M. Hullett of dled at his home here at 9:45 Tues-Detroit and Rov. Charles Flesher of day. He was 59 years old. Fergus Fails. The conventiou then broke up into denominational meet-

New York .- The appellate division of the supremo court has denied the appeal of E. H. Harrlman for the dismissai of a suit fer \$800,000 against him brought by John Donovan of St. Joseph, Mo.

LIFE SENTENCE FOR HARGIS. Slayer of Feudist Father Is Convicted

by Jury-New Trial Refused. Irvlno, Ky.-Condemned to spend

for killing his father, Beach Hargis gave no sign of emotion Wednesday when the verdict of the jury which found him guilty was an nounced.

Bench snt between his mother and sister. No one of the three spoke. They ant motioniess, waiting for the sheriff to take Heach to his cell. After the courtroom became nearly descried, tears silently began coursing down the mother's cheeks. She had spent much of her fortune in the defense of the reckless youth, who siew his father and her hushand-sad had spent it in vain, the jury verdict proved.

This was the second trial of Hargis for this crime. At the first trial the jury was not nhle to agree upon a verdict. United States Senator W. O. Bradley was chief counsel for the defense in both trials.

irvine, Ky.-Beach Hargis, who was convicted of the murder of his father, James liargis, was refused a new trial Friday and Judge Adams sentenced him to life imprisonment.

ARMENIAN SLAYS IN COURT.

Nephew In Detroit, Mich., Police Station.

Detroit, Mich - Dr. G. K. Boyajisn, an Armenian, Friday ahot and ing beside the girl with a smoking re- fatnly wounded his nephew, hinroeourt with his nunt, the physician's wife, on a statutory charge.

Gaspanian's home is Lynn, Masa. Dr. Hoyajian fired four shots at his nephew, three of which found their mark. He then turned the revolver JONES' SLAYERS CAPTURED ing bullets at her. One missed her entirely and the other only penetrated

vacant jury room. Mrs. Boyajian, who is 28 years of age, and her 23-yenr-oid nephew were arrested on complaint of Dr. Boyajian.

Secretary Wilson Sends the Information on the industry Demanded by the Senate.

Washington. - The secretary of agriculture has sent to the senato the information regarding the beet sugar industry for which he was asked in a resolution adopted by the senate on April 8.

The data gives a detailed report of from beets has increased from 42,effect of the establishment of beet sugar factories on the vniue of surrounding farm innd and as to the various factories that have been estabiished throughout the country is given by the secretary.

with western land irregularities, was

The jury was out only 30 minutes and the announcement of the acquittal state officials were adopted. was met by a demonstration of approval among the audlence.

Benson feelingly shook hande with the jurymen and thanked them. Thia is the second time that Benson has been nequitted in this jurisdiction within a year.

BRIEF STATE NEWS

Items of Special Interest to Our Readers

GLEANED FROM MANY SOURCES.

Difference of Opinion Between State Veterinarian Elsenman and Dr. Chris. Miller Regarding Diagnosis of Diseased Cattle Will Result in Lawsuit.

Louisville, Ky.-A difference of opinlen between Dr. F. T. Elsennian, state veterinarian, and Dr. Chris. Miller, regarding the disguesis of n disease which has made its appearance among the nnimnis on the farm of Hnrisn Christie, in Marlon county, which the sinte oilleer holds to be glanders and which Dr. Miller says is superntive lymphangitis, is likely to cause a lawsuit involving the owner of the cattle. the state board of health, Dr. Miller and the United States government at Washington before a final settlement is reached. Dr. Eisenman holds that Dr. Miller has been discourteous to the entire state board and that he has absolutely no basis for his diagnosis. Government Expert Dr. J. F. Buckley sustained Dr. Elsenman's diagnosis several weeks sgo, and a strict quarantine is now being kept on the cattle on the Christie place. The state board is worked up over the ense and say they will fight it to the end.

the remainder of his life in prison LAWFUL MONEY SHOULD BE PAID

Important Decision Rendered by Court of Appeals Regarding Pay of Miners.

Frankfort, Ky.-Miacrs employed in Kentucky mines are entitled to be paid all of thom. They are as follows: in lawful money bi-monthly for their Lewis, 5 per cent un farm lands; Jack. labor, and employers can not pay in checks which have a reduced vnine when redeemed by the company, declares the court of appeals. The decision was announced in a case of the Kentucky Coal Mining Co. against Ben J. Mattingly. The appellee conducted a store which had no arrangement for handling the metal checks of the company. He took in several hundred dollars' worth of them, and when he prerented them for payment the company offered to take them at 10 per cent iess than their face value. Mattingly sued to recover the face value of the checks. In reviewing the case the court said the mining company is presumed to know its own checks and can not require the pinintlf to prove their genuineness when it is unwilling to say they are not genuine. Quoting Section 214 of the constitution, the court says the company can Issue these pay checks on agreement with the miners, but it can not provide any reduction from their face value as paid to the minera for their work

BEACH HARGIS FOUND GUILTY

en a Life Sentence in the Penitentlary.

Irvine, Ky.—Beach Hargis was found gulity of the murder of his father, udge James liargis, by the jury and given a life sentence in the penitenon his wife and fired the two remain- tlary in the Estill circuit court. A conference of liargis and his attorneys at once followed, at which it was dethe erown of her hat. Joseph i. cided to ask for a new trial, and fail-Kraemer, a newspaper artist who was ing thus, to take an appeal to the court sketching Mrs. Boyajish, saved the of appeals. Hargis feels that he was woman's life by pushing her into a treated unfairly by the trial court in nent former, and beat W. T. Patrick, being compelled to stand trial during the iliness of two of his attorneys and the absence of some of his witnesses. The representatives of the common wealth expressed themselves as being satisfied with the verdict and believe it is justified by the law and the evidence. J. C. M. Day, uncle of Heach liargis, was very much incensed over the action of Judge Adams in permitting the jury to stay at the hotel, which, as claimed by the defense, was the acknowledged hesdquarters of the prosecution.

Lexington, Ky .- Circuit Judge Watts Parker withdrew from the race for the democratic nomination for the office ito now holds and for which he was opposed by George R. Hunt, the present county altorney. At the same time Dan W. Scott withdrew from the race for sheriff and S. J. Mooro frum the race for county assessor,

Frankfort, Ky.-The city council ended the telephone war in this city by passing the first reading of the ordinance providing maximum rates of \$2.50 for business houses and \$1.50 for residences. The sale of two franchises is ordered. The tax rate of \$1.75 was niso passed.

Louisville, Ky .- A holt of lightning sustained the McCracken circuit court struck the roof of the famous dining in deciding that the city license ordi- room at the Gait house, and tearing nance is Vaild. The city has been pre- a ten-foot square hole in the roof, comvented from collecting about \$30,000 pletely wrecked the room. The damage is estimated at about \$5,000.

siliny something poked out of the water inte your face, quickly followed by another slimy something and then nnother and another: each endeavoring to secure an option on a different portion of your anatomy, and you have one of the various joys of fishing for the devil fish. But along the Amer-

ican coast of the Gulf of Mexico there are lots and lots of men who eko out their livings doing just this thing. For the man who doesn't have to fish for the devil-fish, it's fun, but to the man or crews of men who do it for their daily bread; well, they content themselves with a single catch a day.

Aristotle of old is recorded in history as the first writer on the subject of devil-fishing, but as he was exceedingly fond of Mr. Aristotle's health he left lots unsaid because he didn't investigate.

Every Guif of Mexico sailor who fishes for this creature carries a hatchet close by, for that is the only means of getting nwny from the fish's tentacles-simply cutting them off as they are about to grasp the intended victim.

in the guif the devil-fish is harpooned and seldom alter one of these grest prongs has been imbedded in the body of the victim are the lishermen able to land their quarry within two hours. Usunity it takes from three to four hours of good, hard muscle-grinding work and then lots of times the crew of the hunting craft must cut the cable and lose the harpoon simply because the brute fights too hard to allow the occupation to be carried on safely. It is little wonder that one fish a day of this variety is considered sufficient.

Many wild, weird tales are told of the devil-fish. One cinss of stories deals with the creature's addiction to towing ocean-going ateamers out of their courses. So strong is the deepsea monster that captains of vessels have been known to wonder what was carrying them to windward, and

stronger as the nge of the fish increases. Some adult specimens have been caught, the tentacles of wbich were over 20 feet in length. Jets of wnter squirted by means of fins ceastitute the method of lecometion of the cuttlefish. The devil-fish's choicest occupation is that of feeding upon shoals of

smaller members of the finny tribe and when interrupted in this pursuit he effect is terrifying. The great creature will toss several of ita tentacles to the surface, still continuing to feed with the rest of them; and if this biuff fails to scare the latruder away, the devil-fish will come to the surface perseaally to see about it. While next to human beings.

sharks are the greatest eaemies of the cuttlefish, the scavengers of the sea are just about as frightened by the tentacled monsters as the latter are by the sharks. Mariners have fense, and thus the Ai- often told of the battles which they have seen la cienr water between these warriors of the briny

deep, but accounts telling of the victors are sesree. Along the cosst of the Gulf of Mexico tho sharks show their delight at the plight of the devil-fish when caught by following in its bloedy wake and with wide-open jaws, seeking a bite here or there from the carcuss. At night along the coast they fight in the water for the opportunity to consume the dead devil-fish after the fisher have flaished with him.

Ail in ail devil-fishing is the most tbrilling, most hazardous, most entraacing method of angling which has ever been discovered, for the creature is dcubtless the craftiest of the inbabitants of the tropical waters. And the man who goes after the scaip of the devil-fish while he is not armed with modera accoutrements is taking his own life in his hand. The plain bardware store hatchet with the short handle is declared to be the best weapon of defense in close cunrters and dozens of lives have been saved simply because the parties attacked were equipped with hatchets and knew hew, when and where to use them upon the aratomy of the dangerous fish.

- THE DEVIL-PISH SWIMMING -5

upon investigation find that a devil-fish or cuttlefish was trying to bite off a corner of the rudder.

Numerous cases of the fish attempting and succeeding in towing ten-ton sloops for miles have been recorded in the nnunls of the industry. Tho devil-lishers always are compelled to put up a hot fight against this animal of the sen. The intended quarry will bull them far out of their course after the lirst harpoon has stung his hide and it takes two and sometimes three of them hefore the catch can be brought close enough to the sloop to allow the gunner to place a shot in a vitni spot.

The fish must be continually werried or it will descend to the bottom to rest, in which case it usually takes the boat, crew and apparatus

A story is told of a boat crew which had not had a devil-fish strike for two days until finally the inrpoon expert on the bowsprit habedded his instrument of torture within the vitals of one of the monsters. The crenture, of course, went through the formality of turning the water thereabouts into a delicate black, this being one of the traits of the species when attacked. This done the devii-fish started for home, which was the bottom of the guif. The harpoon expert hated to let go, on account of strikes being few and the boat, crew and harpoonist also begun the descent in inky darkness. The craft heing provided with air tanka at each end, the harpooned had some job on his hands, sad when down in the sen about 20 feet, as near as the mariners could figure, the eight-armed namesake of the American trust gingerly climbed into the bost with the men who were seeking his life-blood. It being dark the lishermen did not perceive his presence. Once more at the surface, however, and there was a miniature fire panic. Regalaing his presence of mind, however, the harpoonist put aa out drop on his second throw and put an end to the pranks of the fish. That tale has been called "just a fish story," but there are three deep sea fishermen to-day who vouch for the truth of a portion of it and they atili ply that trade on the coast of the guif. But now when the devil-fish starts for home, they let him go.

The manta, as the creature is called by science, is to be found as far north on the Atlantic coast as the Carolinaa and in those waters some of the largest of this class of sea creatures have been seen. One caught on the Atlantic const several years ago required three yoko of oxea to drag it from the sea and its weight was estimated at four tons.

Usually the devil-fish measures from 20 to 25 feet across its back whea full grown and one mariner on the Pacific coast reported that he had estimated one to be 40 feet, which eye mensurement, of course, is within the reaim of possibility. The creature has two well defined plans of de-

tection. The cuttlefish, however, can cast from its tissues an inky substance known as "sepia," which turns the water in its vicinity aa impenetrable black and allows escape. Combined with this there is the set of eight teniacles,

TOWING THE DEVIL-FISH

TO THE BEACH

which possess grips of iron and are fined underneath with "suckers," which, when in working order, form a vacuum over the object grasped and thus insure a firm hold.

So firm is this grasp that story teliers of severni decades ago were fend of dropping the treasure-hunting hero into the hold of the sunken gaileon and there bump him up against the "terrible devii-lish which had thwarted all human wiles and for unipty hundred years been the guardian of the don's foot." The hero always won and captured the coin, being dragged to the surface uncenscious.

There have been one or two cases where the cuttlefish has made its homo within the cabias of sunken ships. In one case in particular off the aorthera coast of South America it is told that n devii-fish killed three divers who desceaded to lay plans for raising the ship. As each man was brought to the surface dead from a cause which none of his mates could guess, aaother was sent to take his place. Finally the trouble was suspected and the last man seat down gave explicit instructions about being brought to the surface upon the faintest tug at the guide line. After aumerous trips up and back he aucceeded in dislodging the creature by cutting off its arms one by one. Deprived of its arms, it fled and ao further trouble was experienced.

Perbaps the most uncanay sight which over befails the devil-fish huaters is when, on a clear day, the denizens of the deep may be seen on the bottom waiking along with the aid of their tentacles, which are used as feet. On land, it is recorded, this is a physical imposability, for the fish, but buoyed up by the water of many fathoars, it's easy.

Though absolutely the most dangerous of creatures of the sen, it is said the devil-fish displays greater fear of human attack than any of the other species. The first movo when assailed is to try to grab the hunters with two or more of the long arms that stretch out as occasion deinneds. Failing ia this the fish will attempt to get nwny under cover of the inky "sepia," hut whea caught with the harpoon and it linds there is an apparent escape the real tug of war commences and the struggles are never eaded until the quarry ceases quivering in death. Then the cables which hold the harpoons are lashed to the stern of the cralt and the sailors turn the veaael's noso towards home, the most welcome part of the voyage.

Study the habits and origin of the cuttlefish is one of the most interesting which any scientist ever attempted. The fish are propagated by means of eggs. The tiny creature at first bas only one tentacle, which, when it grows older, gradually divides into two and thea into four

UNCLE SAM SEEKS STAMP VENDER.

Will the time ever come when Uncle Sam can dispenso with letter carriers? The increasing use of the automobile, the paeumatic tubo and mechanical devices in the postal service would indicate that eventually some method of delivering mail will be found which will, in a large measure, do away with the present system of distribution.

The postoffice department bas an agaual sppropriation which is used to experiment with mechanical devices, and overy year the officials are called upon to investigate the practicability and utility of inventions. There bave been hundreds of differeat styles of mail boxes submitted, and there is no end of devices designed for picking up mail baga by fast-moving express trains. There is ao doubt, so experts say, that the stamp-fixing machine will come into general use, and they are equally certain that the government will adopt siot muchines for the automatic sale of postage stamps, as Germany and aumerous other foreign countries have. The department has made an officiai trial of such nachines.

A little more than a year ago the postmaster general appointed a special committee of officials to atake a thorough lavestigation of the stampvending machines. Washington is now having its extended public demonstration of these machines. and other cities also will have a chance to try them for a long period under the direct supervision of the postoffice authorities.

When the postmaster general decided to make experimenta with stamp-seiling machines, he invited all persons with inventive tendencies to submit models. He did not confine the invitation to America. The result was that some 75 machines were offered for experiment, and the postoffice committee had a long and tedious task in selecting those that appeared to be practical.

After much investigation the committee selected a half-dozen macbines for further test. To the owners or inveators of these six makes was given the opportunity to make public tests of the venders under the direction of the department, but at their own expense. Flaaily three different models were picked out for an extended public test at government expense.

Two of these machines are foreign inventionsone a German machine and the other the invention of an Australian.

130 DEAD IN STORM S

MIDDLE AND SOUTHERN STATES SWEPT BY FIERCE TOR-NADOES.

Many Towns Are Totally Destroyed by Winds-Wide Area Covered and Hundreds Are Left Homeless-Partial List of Dead.

Chicago.-At least 130 persons were killed and 300 injured by the tornadees which swept the middle and seuthern states Thursday. The property losses will total several millien doilars. Only meager reports had been received Friday from the stricken districts. Two were killed and half a dozen furt in this city. The ternadoes teuching here and

there carried their devastation through Illinois, Indiana, Ohio, Michignn, Arknnsas, Mississippi, Teanessee, Keatucky and Missouri.

An incomplete list of denths fel-

Chicago, 111...... 2 llorn Lake, Silss......18 Wheatley, Ark...... 2 Forest City, Ark...... 2 Glies County, Tean.....20 Danville, Aln..... 2 Hardeman County, Tena...... 1 Clarksville, Tenn..... 1 Centerville, Tena..... 1 Franklin, Tenn..... 1 ililisbero, Tenn.... Laconia, Tean..... 2 Belis, Tenn.... Quito, Tenn.... Alten, Mo..... 6 Nashville, Tenn.-Advices being re-

ceived by the Sanaer show that the storm was the worst ever knewa in this state. The indications are that to any undue degree entails mental the death list in this state will foot up seventy or mere, and the damage will run into the millions of dollars. The wires are prostrated in every directien, and it will he several days before the full extent of the less of life and damage will be known.

Twenty persons were reported to have been killed and 40 injured la the tornade which swept ever the eastern section of Giles county. Bee Springs, a village in the southeast section, 16 miles from Pulaski, was reported to have been tetally destroyed. The country in this section is devastated and details are menger.

Mnmmoth Springs, Ark .- A tornado passed 18 miles east of here killing eight persons and injuring many others The known dead: B. F. Sanders, wife nad daughter; George Whitworth and wife, Robert Frost and wife, Miss Holiand.

feet of the west wall of the cyclene which passed over this section of the state. The prisoners were ail in their cells at the time of the accldent, and say possible outbreak was prevented by the prompt action of Warden Reid, who placed patrels in the cerridors with orders to use their rifles to put down any attempt at escape. Although the convicts were excited, no effert was made to effect a delivery Company F, Third regiment Indiana National Guard, received erders from Gov. Marshail to proceed immediately to Michigan City to preserve order and prevent any possible outbreak. No lives were lost by the falling of the walls.

Evansviile, Ind.-A wind storm in southern Indiana and western Keatucky caused many thousands of dollars' damage in the destruction of outbuildings and feacea. The gale blew at the velocity of 50 miles an hour. Boats could not leave port. The damage along the river is quite heavy.

Detroit, Mich .-- A tidal wave ten feet high at South Haven, on the east shore of Lake Michigan, was the most uausual feature of the terrific wind and rain storm which swept over lower Michigaa. The wave caused about \$2,000 damage to water front property at South Haven.

Cincinnati.—A violent wind storm that swept over Kentucky hit Latonia with almost the severity of a tornsdo, causing a damage of \$10,000 to the Latonia raco track and from \$10,000 to \$15,000 damage to the towa of Latonia and the vicinity.

At Piqua, O., a toraado 20 miles wide dived down in this section and caused n property damage estimated at \$100,000. The path of destruction exteads over several counties, and extreme damage was done by the wind in the towns of Piqua, Sidaey, Houston, Fletcher, St. Paris and Kirkwood. No losa of life.

Receiver for Evelyn Thaw, New York.-Justice McAvoy signed an order Friday appointing George B. llayes receiver for Evelya Nesbit Thaw in the supplementary proceedings brought by Eliso Hartwig, a milliner, to enforce a judgment of \$253,25 obtained against Mrs. Thaw last September.

Brother and Sister Drown. Atlanta, Ga.-William and Pearl Withra, brother and sister, were drowned Friday as a result of a heat capsizing.

TENNESSEE SUFFERS WORST ALCOHOL IN VARIOUS DRINKS.

There is Less Alcohol in Beer Than in Aany Other intoxicating Drink.

Beer, says Mulhall, the famous statistician, centains only four per ceat. of alcohel, and from the point of hygiene is the least noxious of drinks that intexicate-if it is pure. Somo of the cheap dealers manage, however, to water their beer and alcoholize it with inferior types of aicohoi, thereby increasing its intoxicating power, as weil as making an unusual profit on the result of sales per glass-a custom mere prevalent in Germany, France and London than in America. Stont or porter centains more alcohel than beer, ale having aimost double the percentage of either, namely, 7.5 per cent. Who would think that ordinary cider contains nearly nine per cent. of the intoxicant-as much, nearly, as the white wines like Texas City, III...... 4 Moselie er Marcobrunner? Champagne, despite its exhibarating effects. alcohol, that is to aay, one per cent.

Sherry and vermouth are each ai-Medina, Tena..... 4 Maraschino and Chartreuse to the extent respectively, of 34 and 43 per Mammoth Springs, Ark...... 8 cent. Coming to the fire waters, gia contains least alcohol, with 51 per Hartseil, Ala..... 4 cent. Brandy centains 53.4 per cent.; rual holds over 53.7 per ceat, of the ky, with 53.9 per cent., and the Scetch brand, with 54.3 to the hundred parts. It is well known that coffee and strong tea exhibarate to an equal degree with figuera like Curacoa and Aniseed, which possess, spectively, a percentage of 27 and 33. They are more easily digested, however, and ceasequently have less enduring effects. Nevertheless, both these atiaiulaata have to be calculated with, in as far as the driaking of them or psychic, and physical penalties, as in the case of nlcoholizeddrinks which produce the tippling habit. The best antidote to all forms of stimulantdrinking is pure and creamful milk, and if in alcoholic stimulant there is solely sought the exhibarating effect usually produced, an intelligent physician can prescribe a harmiess stimulant which will supply the needed toning to the mental system.

Economic Value of Temperance. Ex-Gev. Smith of Georgia has issued

a statement which proves indisputably the enormous value of prohibition from nn economic standpolut, showing, as it does, that in spite of the recent great financial depression, there is materially more aloaey in the state treasury since prohibition as a law weat into effect ia the state. His statement says: "Despite the fact that the South Bead, Ind. - Six hundred prohibition law caused a less to the treasury of \$240,000 nnnually, and de-Northern Indiana state prison at spite last year's panic, the state cel-Michigan City was hiowa dewn by a lected from last year's taxes over \$500. 000 more than it collected in Decemher and the early menths of 1907 from taxes of 1906. This increase of revenue came in part from compelling railroad and public servico cempaniea te pay mere nearly the amount of taxes which they justly owed the state than they paid befere in previous years.

"Next year the treasury should have to its credit hetween \$500,000 and \$600,000 from ad valorem taxation in excess of the amount collected from the taxes of 1906.

"Not only has the \$240,000 less from liquer liceases been wiped out, but a large balance in addition has been given. We will this year pay \$330,000 to the public schools in excess of any sum paid in previous years.

Poverty is the Result of Drink.

Sir T. P. Wbittaker, M. P., oao of the most distinguished temperance advocates of Great Brintain, refutes decisively the claim of some investigators into social problema that the drinking habita among the poorer cissses are directly due to their coadition of poverty. "Drinking," he states, "is far more the cause of poverty than poverty is the cause of drinking. The largest coasumption of driak is not among the very poorest. Many of the poor are where they are because of the drinking of themselves and others; but when they have suak iato the direst poverty they are not the heaviest drinkers. They have not the money. There is the most driaking and drunkenness when trade is good and the country is prosperous. It is far more prevalent in wealthy manufacturing and miniag districts than in poor agricultural ones. When trade is bad the drink bill fails rapidly nad the arrests for druakeaneas diminish greatly. Speaking broadly, peeple do not drink beeause they are poor. They are poor because they drink, or because those with whom they are connected bave drunk and do driak."

The hardest trial of the heart is. whether it can bear a rival'a failuro without triumph.-Aikin.

Some of the Lord's best helpera have been taken out of the Devil's front rank.

Many a maa who sets out to kill a giant is tripped up hy an old barrel hoop.

THE BEST PAPER FOR YOU IS THE CITIZEN

THE CITIZEN gives you more than the worth of your money, and is growing better all the time. Just compare it with the other newspapers you see. You can get others as cheap, but either they are not as good, or they are not made for the mountains, or they do not give as much. Just look at a few of the things we are giving you now. NEWS-all the news of the world, of this country and of the state that is worth reading. All the news of the mountains that we can get, and more than any other All the news of dozens of mountain lowns, where correspondents write to us every little while. CATTLE-All the latest cattle prices, also the prices on ties, and tanbark, and spokes, etc. FARM HINTS A good column and sometimes more of hints that will help in the work on the farm. HOME HINTS-Good hints on housekeeping by an expert. SCHOOL-A running article on how to teach, to make your school one of the best in the state, by one of the best teachers in the state. THE SUNDAY SCHOOL LESSON-A full column every week. STORIES A fine, the time, and often a good short story n week. TEMPER. esting, exciting ANCE-A column of good reading about temperance. AND OTHER THINGS-You all know how many other good things you get in The Civizes, many of the things that you can't get in any other paper. . . And all for \$1.00, the price of lots of poorer papers. That is our best hargain. Don't miss it. Send in your dollar for another year, if your subscription is out.

ALL FOR \$1.00

Lots of poorer papers charge as much - other papers as good charge more.

In order to make our offer still more attractive, we arrange to give subscribers bargains with their paper. We used to give some of these things away, but we have made the paper so much better that we cannot afford to do that any more. You can get all these things with Tun Cirizen cheaper than any where else, and besides get a better paper than you can get any where else. These are the offers:-

No. 1:—That Citizen Knife. Most of you know it. It is the finest premium that was ever offered with any paper. It will cost you 75 cents at a store, int you can get it with THE CITIZEN for 25 cents extra. The knife, 75 cents, the CITIZEN \$1.00, both worth \$1.75, for \$1.25.
No. 2:—The Farmers Rapid Catculator, a thirty five cent book that is worth several dollars to any up to date farmer. It tells what you want to know about almost anything on the farm. It is a good book on diseases of horses, cattle, sheep, and hogs; tells you how to know what is the matter and what to do it gives flagres tells you how to reck on interest if you have borrowed or loaned money, or on diseases of horses, cattle, sheep, and hogs; tells you how to know what is the matter and what to do. It gives figures, tells you how to reckon interest if you have borrowed or loaned money, or how many bushels of corn there are in a fond that welghs so much, or how to measure the corn in a crit, or in a pile, and how much seed it takes to plant anaere, or how many brick to build a chimney and fots of things of that kind. And it has places for you to keep account of your expenses and earnings, and of what you lought and sold, and my thing else you want to remember. It you are a farmers it is just thus thing you want. The Calculator 35 cents. The Citizen \$1.00. Itoth, worth \$1.00 for il is just the thing you want. The Calculator 35 cents. The Cithzen \$1.00. ttoth, worth, \$1.36 for

No. 3:--The National Handy Package, Just the thing your wife has been looking for. Needles and pins of all kinds. More than a quarter's worth, but it usually sells for a quarter. We sell it with The Citizen for ten cents. Handy Package, 25 cents. The t'itizen \$1.00. Roth, worth, \$1.26 for \$1.40. No. 4:--A book, "The Mountain People of Kenticky." By William II. Hinney a mountain man, felling the history and the present condition of the mountains as he sees them. The book is worth \$1.50, but we will sell it with The Citizen for 50 cents. The book, \$1.50, The Citizen \$1.00. Both, worth \$2.50 for

No. 5:—Another book, 'Jesus of Nazareth.' A fine life of t'hrist, by the Rev. Dr. William E. Barton. A fine back, in beautiful binding, with 350 illustrations, an ornament to any home, and a good book to read. The usual price is \$2.50, but we sell it for \$1.00. The book \$2.50, The Citizen \$1.00. Itoth, worth \$3.50.

You can get one of these with your Citizen.

They are easy to get. Just write to The Citizen, Beres, Ky. Teil us that you want to renew, say what premium you want, and send correct amount of money. Write your mane and address plainly The best way to send the money is by post-office money order. Get one from the postmaster. You can niso send your check

OR YOU CAN GO TO OUR AGENTS.

We have a lot of them, and they can take subscriptions, and send your name and money, and most of them can give you the premiums. If they haven't them, we will send them to you as soon as we get your money. No premiums are sent dil the money is paid. If you want to do that, go to one of these
